TO THE HONORABLE TRADEMARK TRIAL AND APPEAL BOARD

NOTICE OF OPPOSITION

1. Zebra Data Sciences Ltd. (“Zebra”) an international provider of services related to data management, including virtual data rooms, under the mark EZDATAROOM.

EZDATAROOM virtual data rooms are unique in terms of their ability to handle large scale data with ease. As a result, Zebra has become the industry leader and its EZDATAROOM mark has achieved significant name recognition among consumers of virtual data room services.

2. On September 20, 2013, Zebra filed an application to obtain a U.S. trademark registration for its mark EZDATAROOM assigned S.N. 86/070,585 in the following classes:

<u>Class</u>	<u>Goods/Services</u>
IC035	Business referral services, namely sharing business leads and referrals online and via email in the oil and gas industry; promoting the goods and services of others, namely, providing an online database of available investment, purchase, and joint venture opportunities in the field of oil and gas exploration, development and production; business consultation services, namely assisting others in the development and distribution of prospectus materials for oil and gas transactions and advising others on the review, negotiation and consummation of transactions in the oil and gas industry
IC038	Providing online facilities for real-time interaction and sharing of documents between users related to oil and gas transactions
IC039	Electronic document archiving services

IC042	Providing temporary, online use of non-downloadable software for in-browser viewing of legal, commercial and technical documents in the field of oil and gas transactions
-------	---

3. In each of the foregoing classes, the EZDATAROOM mark was first used by Zebra or Zebra's related company or licensee or predecessor in interest at least as early as 2007, and first used in commerce at least as early as 2007, and is now in use in such commerce.

4. Zebra's rights in the mark EZDATAROOM were established well before the priority date of Applicant's mark EZDATAROOM. Yet Applicant seeks U.S. trademark registration for the mark EZDATAROOM in the following classes:

<u>Class</u>	<u>Goods/Services</u>
IC009	Computer application software for mobile phones, namely, software for electronic collaborative activities for data and document review, editing and transactional closing; Computer application software for electronic collaborative activities, namely, software for electronic collaborative activities for data and document review, editing and transactional closing; Computer game software downloadable from a global computer network; Computer software for accessing information directories that may be downloaded from the global computer network; Computer software for encryption; Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Computer software for use in the safeguarding of digital files, including audio, video, text, binary, still images, graphics and multimedia files; Computer software for electronic collaborative activities for data and document review, editing and transactional closing and instructional user guides sold as a unit; Computer software for electronic collaborative activities for data and document review, editing and transactional closing; Computer software for electronic collaborative activities for data and document review, editing and transactional closing that may be downloaded from a global computer network; Database management software for electronic collaborative activities for data and document review, editing and transactional closing; Downloadable cloud computer software for electronic collaborative activities for data and document review, editing and transactional closing; Electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of electronic collaborative activities for data and document review, editing and transactional closing, provided via computer and communication networks; Enterprise software in the nature of a Computer application software for mobile phones, namely, software for electronic collaborative activities for data and document review, editing and transactional closing; Computer application software for electronic collaborative activities, namely, software for electronic collaborative activities for data and document review, editing and transactional closing; Computer game software downloadable from a global computer network; Computer software for accessing information directories

	that may be downloaded from the global computer network; Computer software for encryption; Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Computer software for use in the safeguarding of digital files, including audio, video, text, binary, still images, graphics and multimedia files; Computer software for electronic collaborative activities for data and document review, editing and transactional closing and instructional user guides sold as a unit; Computer software for electronic collaborative activities for data and document review, editing and transactional closing; Computer software for electronic collaborative activities for data and document review, editing and transactional closing that may be downloaded from a global computer network; Database management software for electronic collaborative activities for data and document review, editing and transactional closing; Downloadable cloud computer software for electronic collaborative activities for data and document review, editing and transactional closing; Electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of electronic collaborative activities for data and document review, editing and transactional closing, provided via computer and communication networks; Enterprise software in the nature of a database for nontransactional data and a search engine for database content; Virtual reality software for electronic collaborative activities for data and document review, editing and transactional closing; VPN (virtual private network) operating software database for non-transactional data and a search engine for database content; Virtual reality software for electronic collaborative activities for data and document review, editing and transaction
IC038	Internet services, namely, providing multiple-user access to information on the internet concerning the development and generation of computer software for use in businesses as well as the functions and application of such business software; Providing temporary access to a supercomputer for the purpose of running software programs
IC042	Application service provider (ASP), namely, hosting computer software applications of others; Application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of electronic collaborative activities for data and document review, editing and transactional closing; Computer and computer software rental; Computer software consultancy; Computer software consulting; Computer software design; Computer software design and updating; Computer software development; Computer software rental; Consulting in the field of configuration management for computer hardware and software; Customizing computer software; Design and development of computer software; Development of software for secure network operations; Hosting the software, websites and other computer applications of others on a virtual private server; Installation and maintenance of computer software; Maintenance and updating of computer software; Maintenance and upgrading of computer software; Maintenance of computer software; Maintenance of computer software used for electronic collaborative activities for data and document review, editing and transactional closing

5. The mark applied for, EZDATAROOM, when used on, or in connection with, the goods and services of the Application, squarely overlaps with Zebra's extensive trademark rights in EZDATAROOM. As such, use by Applicant of EZDATAROOM for the services identified in application S.N. 85/890,265 is likely to cause confusion, or to cause mistake or to deceive. 15 U.S.C. § 1052(d).

6. As further grounds for opposition, Zebra avers that Applicant has committed fraud on the Trademark Office. Upon information and belief, Applicant knew that Zebra was the owner of the EZDATAROOM mark with priority of rights for similar goods and services at the time it submitted the declaration of Harivadan J. Pandya on March 29, 2013 representing that to the best of his knowledge and belief no other person, firm, corporation, or association has the right to use the mark in commerce, either in the identical form thereof or in such near resemblance thereto as to be likely, when used on or in connection with the goods/services of such other person, to cause confusion, or to cause mistake, or to deceive.

7. Regardless, Applicant and Mr. Pandya knew of Zebra's superior rights on **February 4, 2014** when Mr. Pandya submitted a declaration falsely representing that to the best of his knowledge and belief no other person, firm, corporation, or association has the right to use the mark in commerce, either in the identical form thereof or in such near resemblance thereto as to be likely, when used on or in connection with the goods/services of such other person, to cause confusion, or to cause mistake, or to deceive. This was well-after Zebra sent a cease and desist letter (a copy of which is attached as Exhibit A) to Mr. Pandya's attention on **September 20, 2013** informing him and Applicant of Zebra's rights and priority and that Applicant's use of the EZDATAROOM mark constitutes trademark infringement.

8. On **October 2, 2013**, Mr. Pandya acknowledged receipt of the cease and desist letter and represented to Zebra that he had “escalated the matter to [Applicant’s] attorneys, who are looking in the matter [and would] revert to [Zebra] in due course.” Mr. Pandya, however, refused to provide contact information for its attorneys upon Zebra’s request. Zebra never received another response from Mr. Pandya and never heard from Applicant’s counsel.

9. As the foregoing amply demonstrates, Mr. Pandya’s **February 4, 2014** declaration was willfully false. The Board should refuse application S.N. 85/890,265 based on this fraud.

10. Additionally and alternatively, the Board should refuse application S.N. 85/890,265 because, upon information and belief, Applicant does not use the mark in commerce for each and every good or service identified in the Application, furthering evidencing fraud in Mr. Pandya’s declarations. Upon information and belief, Mr. Pandya’s representation that the mark was in use in commerce on or in connection with the goods and/or services listed in the application as of the application filing date as willfully false.

11. For the reasons set out above, Zebra is being damaged because application S.N. 85/890,265, if granted, would create statutory rights in violation of Zebra’s established rights.

WHEREFORE, Zebra prays that judgment be entered refusing application S.N. 85/890,265 and for such other and further relief that the Board finds just and proper.

Dated: April 17, 2014

Re: Infringement of Zebra Data Sciences' EZDATAROOM Trademark

Dear Mr. Pandya:

By way of introduction, this firm represents Zebra Data Sciences Ltd. ("Zebra") in certain of its intellectual property matters. Zebra is the owner of the mark EZDATAROOM, including but not limited to United States Trademark application Serial No. 86/070,585 for the mark EZDATAROOM. As you are likely aware, Zebra is an international provider of services related to data management, including virtual data rooms under the mark EZDATAROOM since 2004. Zebra now has six offices worldwide to serve its customers, including an office in Houston, Texas. EZDATAROOM virtual data rooms are unique in terms of their ability to handle large scale data with ease. As a result, Zebra has become the industry leader and its EZDATAROOM mark has achieved significant name recognition among consumers of virtual data room services.

Zebra has recently learned that Capital Legal Solutions, LLC d/b/a Capital Novus ("Capital Novus") has begun to use EZDATAROOM as a mark for its competing services and has submitted an application to the United States Patent and Trademark Office to register the EZDATAROOM mark, assigned Serial Number 85/890265. The purpose of this letter is to place Capital Novus on notice that its use of the EZDATAROOM mark constitutes trademark infringement of Zebra's valuable trademark rights. Zebra must insist that Capital Novus (1) cease all use of Zebra's EZDATAROOM mark or any variation thereof—including EZDATA and EASY DATA—and (2) withdraw its application assigned Serial Number 85/890265 for the EZDATAROOM mark.

There are two elements of a trademark infringement claim: (1) ownership of a protectable trademark, and (2) infringement, which means the use of a mark is likely to create confusion in the mind of the ordinary consumer as to the source, affiliation, or sponsorship of a product or service.

First, concerning Zebra's ownership of a protectable trademark, the basic, indisputable tenets of trademark law include the principals that (1) rights result from use of a mark, rather than registration, and (2) the senior user of a mark has priority over junior users for similar good and services. Simply put, in terms of trademark law, first in time means first in right. Here, Zebra began use of its EZDATAROOM mark for virtual data rooms in 2004—almost a decade prior to Capital Novus's claimed first use in 2012 for the same mark for the same services.

September 20, 2013

Page 2

We are aware that Capital Novus uses the “EZ” prefix for a number of marks for different services. But that does not give it trademark rights in the “EZ” prefix, nor does it allow Capital Novus to use Zebra’s EZDATAROOM mark. Zebra has offered its virtual data room services under its EZDATAROOM mark to consumers world-wide and has achieved international success and recognition of its EZDATAROOM mark. Zebra inarguably has priority over Capital Novus.

Second, concerning Capital Novus’ infringement of Zebra’s valuable trademark rights, the fact that Capital Novus has adopted Zebra’s EZDATAROOM mark for the same services means that customers are likely to be confused as to as to the source, affiliation, or sponsorship of the parties’ services. Federal courts have universally recognized that the greater the similarity between the products and services, the greater the likelihood of confusion. When competing parties use the same mark for the same services—as is the case here—consumer confusion is not only likely but likely inescapable. Accordingly, Capital Novus’ use of the EZDATAROOM mark constitutes trademark infringement of Zebra’s trademark rights.

We find it hard to believe that Capital Novus was completely unaware of Zebra’s use of its EZDATAROOM mark for virtual data rooms when Capital Novus filed its application assigned Serial Number 85/890265 for the EZDATAROOM mark. Even the most cursory of Internet searches would have revealed Zebra’s use of the EZDATAROOM mark and, further, that Zebra owns the domain www.ezdataroom.com and has since October 2003. As you can see from the attached Google® search results for the term *ezdataroom*, Zebra dominates the results – both as the owner of the links and as a reference in third-party websites.

If Capital Novus was aware of Zebra’s use of its EZDATAROOM mark for virtual data rooms, your declaration in support of Capital Novus’ application assigned Serial Number 85/890265 for the EZDATAROOM mark was fraudulent in claiming that, to the best of your knowledge and belief, Capital Novus is “the owner of the mark and that no one else is entitled to use the mark in commerce, either in the identical form or in such near resemblance as to be likely, when applied to the goods or services of the other person, to cause confusion or mistake, or to deceive.” Likewise, should Capital Novus not be currently using the EZDATAROOM mark on each and every good and service claimed in its application, Capital Novus would have been fraudulent in claiming that, to the best of your knowledge and belief, Capital Novus “is using the mark in commerce on or in connection with the goods or services listed in the application.” Fraud upon the Trademark Office results in refusal of registration and possible disciplinary sanctions. TMEP § 720.

Zebra cannot allow Capital Novus to threaten the goodwill and customer loyalty that Zebra has spent almost a decade building, and Zebra is prepared to take whatever steps are necessary to protect its reputation as well as its valuable rights in its EZDATAROOM trademark if Capital Novus does not cease use of the EZDATAROOM mark.

We trust that Capital Novus understands the seriousness of this matter and will agree:

- 1) To immediately and permanently cease all use of Zebra’s EZDATAROOM mark (or any variation thereon including without limitation EZDATA and EASY DATA) as an entity name, trade name, trademark or service mark, domain name, and source identifier;

September 20, 2013

Page 3

- 2) To immediately and permanently remove all references to EZDATAROOM (or any variation thereon including without limitation EZDATA and EASY DATA) from any web site you own or operate;
- 3) To immediately and permanently cease any and all use of EZDATAROOM (or any variation thereon including without limitation EZDATA and EASY DATA) as metatags in any web site you own or operate;
- 4) To immediately and permanently cease any and all search engine advertising based upon the keyword EZDATAROOM (or any variation thereon including without limitation EZDATA and EASY DATA);
- 5) To immediately and permanently remove any Sponsored Results advertisements that contain EZDATAROOM (or any variation thereon including without limitation EZDATA and EASY DATA);
- 6) To expressly abandon its application assigned Serial Number 85/890265 for the EZDATAROOM mark by signing the attached Request for Express Abandonment (Withdrawal) of Application and submitting it to the Trademark Office; and
- 7) To acknowledge in writing Zebra's superior rights in the EZDATAROOM mark throughout the world.

Please confirm no later than September 30, 2013 that Capital Novus will take the foregoing steps to redress its infringement so that we can bring this matter to a swift and amicable close. If we receive such confirmation, Zebra will be in a position to allow Capital Novus a reasonable time period to transition from use of the EZDATAROOM mark to a non-infringing mark. Nothing in this letter, however, should be construed as a waiver of any rights Zebra has in law and equity.

I look forward to your response.

Sincerely,

Megan M. O'Laughlin
